

IBM

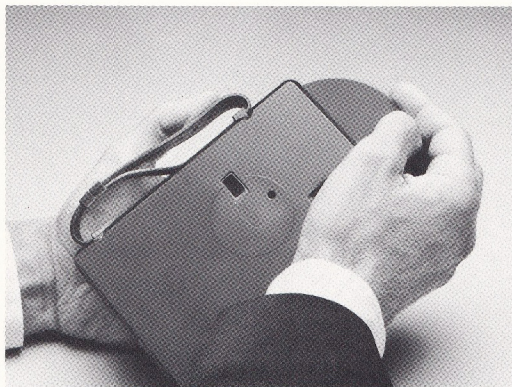

6:5 Cartridge System

Portable Recorder

The IBM 6:5 Portable Recorder

Convenient, compact, fully compatible with all IBM 6:5 Cartridge System equipment—the IBM 6:5 Portable Recorder lets you record your dictation anywhere, anytime. Plus it offers good audio quality and is capable of recording short or long messages.

Convenient.

Here is a portable input processing recorder designed to work where you do, anywhere, in or out of the office. It gives you up to 2½ hours of available recording time. Within it comes enough time to dictate a short message or a lengthy document. And one button control lets you record, stop, listen, review and give special instructions.

Compact.

Lightweight (20 ounces) and small enough to carry in your attache case or suitcase, the IBM 6:5 Portable Recorder is a sturdy compact unit that can extend your input processing capabilities.

Economical.

The IBM 6:5 Portable Recorder is powered by a single rechargeable battery. This means you don't have to replace the battery, but simply recharge it when the battery wears down. And of course, the IBM 6:5 Mag Disc is reusable.

Compatible.

The 3¼-inch magnetic disc recording medium used in this unit is fully compatible with all input processing equipment in the IBM 6:5 Cartridge System.

Features.

- Portable, compact, convenient
- Up to 2½ hours of recording time
